

03-Oct-2023

The Honorable Jennifer Granholm
Secretary
U.S. Department of Energy

Dear Secretary Granholm,

On behalf of North American Young Generation in Nuclear (NAYGN), I am pleased to invite you to address our annual conference, *Energizing the Future of Nuclear*, to be held June 3-4, at The Mint in Charlotte, NC. For reference these are the photos from our [2023 conference](#). This year, we expect over 400 NAYGN members to attend the 2024 conference to learn more about a variety of emerging and important topics in the realm of nuclear policy, advancements in technology, nuclear workforce issues, leadership development and more.

NAYGN would be honored if you would provide plenary remarks the morning of Monday June 3rd, 2024.

With your contribution, you can add to our members' career development and help keep the nuclear industry vibrant, growing and forward thinking. NAYGN considers your insights and experiences in the industry to be important to the success of the conference and its members.

NAYGN is a professional society focused on providing professional development for its members and sharing public information about the benefits obtained from peaceful use of nuclear science and technology. The organization has a broad membership base, including members from utilities, vendors, suppliers, research facilities and universities from Canada, the United States and Mexico. Membership in the NAYGN organization is open to professionals who support these goals. Presently, NAYGN comprises over 15,000 members and 100 local chapters.

NAYGN greatly appreciates your consideration and hopes that you will be able to accept our invitation. Please feel free to contact me at +1-905-244-6242, or president@naygn.org for responses or questions. I would be happy to discuss the format and objectives of this opportunity in further detail.

Best Regards,

Matthew Mairinger
President
North American Young Generation in Nuclear
