

Celebrating Black and African Americans in Nuclear and Plasma Science CBAANPS Outreach Series

ANS@UCI with the collaboration of WIPA is proud to host the CBAANPS Outreach Seminar Series:

The year of 2020 has highlighted the deep-rooted challenges for Black and underrepresented communities. In times like these it is imperative that we come together to inspire and encourage the future generation of STEM workers. CBAANPS will host and emphasize the experiences and journeys of Black and African American professional scientist and engineers.

These presentations will be aimed at introducing high school and college students to the many different careers in STEM and nuclear fields.

Questions are welcomed!

Raspberry A. Simpson
MIT Graduate Student
studying Laser Driven
Particle Beams
September 16th, 2020
3pm PDT

Dr. Edward Thomas Jr.
Physics Professor and
Assoc. Dean for Research
at Auburn University
October 14th, 2020
3pm PDT

Dr. Mareena R. Snowden
Senior Engineer in the
National Security Analysis
Department at JHAPL
First Black woman to
graduate from MIT Nuclear
Engineering PhD program
November 5th, 2020
3pm PDT

CDR Dr. Royce W. James
Former Head of Physics
Section at Coast Guard
Academy, Air Force
Institute of Technology
Faculty Fellow
November 11th, 2020
11am PDT
