# What is NAYGN?

## Developing leaders to energize the future of nuclear

North American Young Generation in Nuclear (NAYGN) is a 501 (c)(6) non-profit organization which provides opportunities for a young generation of nuclear enthusiasts to develop strong leadership and professional skills, create lifelong connections, engage and inform the public, and inspire today's nuclear technology professionals to meet the challenges of the 21st century.

NAYGN was established in 1999 and now consists of 100+ chapters across North America.

## About the Conference

NAYGN is proud to announce our first stand-alone conference starting Wednesday June 21, 2023 and concluding Friday June 23, 2023 in beautiful Minneapolis, MN at the Renaissance Minneapolis Hotel, The Depot. This conference is for young professionals in the nuclear industry that are eager to engage in professional development, soft skills training, technical discussions, and networking with industry executives.

Attendees will have the chance to sit in on sessions that discuss the future of nuclear and ways to think innovatively. Additional sessions include ways to advocate for nuclear, revive your local NAYGN chapter, DE&I, and Speed Networking. More details on speakers will be released on our social media pages.

There will be an exhibit hall with 30 booths for attendees to walk through in between sessions, breaks, and during meals. After each day there will be a social event where members are able to network and meet the board members.
