## What is NAYGN

NAYGN is a non-profit organization which provides opportunities for a young generation of nuclear enthusiasts to develop strong leadership and professional skills, create life-long connections, engage and inform the public, and inspire today's nuclear technology professionals to meet the challenges of the 21st century. NAYGN was established in 1999 and now consists of 100+ chapters across North America. The four cornerstones are: professional development, public relations, community outreach and membership/networking.
