

SPECIAL EVENT: SUSTAIN U - YOUR FUTURE IN SUSTAINABLE ENERGY

As international clean energy leaders travel to the Steel City as part of the 13th Clean Energy Ministerial (CEM13), the North American Young Generation in Nuclear (NAYGN) and the University of Pittsburgh invite you to an exclusive event that highlights how local industry leaders are shaping our future of sustainable energy. There will be discussions from expert panelists followed by an informal co-op and career fair.

AN EVENT BROUGHT TO YOU BY

The purpose of NAYGN is to develop leaders to energize the future of nuclear. This event aims to showcase how the young generation of Pittsburghers are evolving this industry, their innovations and global ambitions! Pittsburgh's youth is building the future of nuclear power towards a clean energy economy! Join us and discover how it's being done!

WHY ATTEND?

- ✓ Network with local industry leaders in an informal setting for next summer internships and full time career opportunities.
- ✓ Experience the latest innovative technologies.
- ✓ Learn more about companies in the Pittsburgh region and their commitment to long term sustainability and clean energy.
