

THERE IS NO NET ZERO WITHOUT NUCLEAR

A stylized globe is shown from a perspective that highlights the Americas. The continents of North and South America are colored in a vibrant green, while the rest of the world's landmasses are rendered in black. The globe is partially obscured by the text 'THERE IS NO NET ZERO WITHOUT NUCLEAR' which is arched over the top of the globe. The word 'NUCLEAR' is highlighted in green, matching the color of the Americas on the globe.

DID YOU KNOW?

According to Our World in Data¹,
nuclear energy results in

99.9% fewer deaths than brown coal;
99.8% fewer than coal;
99.7% fewer than oil; and
97.6% fewer than gas?

**Nuclear is as *safe* as
wind and solar!**

THERE IS NO NET ZERO WITHOUT NUCLEAR

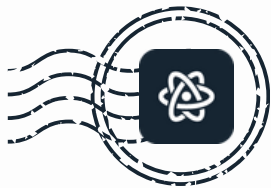

A stylized globe is shown from a perspective that highlights the Americas. The continents of North and South America are colored in a vibrant green, while the rest of the globe is rendered in black. The text 'THERE IS NO NET ZERO WITHOUT NUCLEAR' is arched over the top of the globe, with 'NUCLEAR' highlighted in green to match the Americas.

DID YOU KNOW?

A pellet of uranium fuel, the size of a **gummy bear**, is equivalent to

149 gallons of oil
and
2,000 pounds of coal

That's enough to power a home for two and a half months!
